The screenshot shows the Nessus Essentials web interface. The main content area displays the 'Vulnerabilities' page for a scan named 'skct' targeting the host '192.168.176.241'. The interface includes a sidebar with navigation options like 'My Scans', 'Vulnerability', 'All Scans', and 'Trash'. The main area has a table of vulnerabilities with columns for Severity, CVSS, VPR, EPSS, Name, Family, and Count. Two vulnerabilities are listed: 'Nessus Scan Information' (Settings, Count: 1) and 'Ping the remote host' (Port scanners, Count: 1). To the right, 'Host Details' are shown, including IP, MAC, Start/End times, and a 'Vulnerabilities' donut chart. The bottom of the screen shows a Windows taskbar with the time 1:13 PM on 8/24/2023.

Sev	CVSS	VPR	EPSS	Name	Family	Count
Info				Nessus Scan Information	Settings	1
Info				Ping the remote host	Port scanners	1

The screenshot shows the 'New Scan / Host Discovery' configuration page in the Nessus Essentials web interface. The page is divided into 'Settings' and 'Plugins' tabs. Under 'Settings', there are sections for 'General', 'Schedule', 'Notifications', 'Discovery', 'Report', and 'Advanced'. The 'General' section is active, showing fields for 'Name' (set to 'exp4'), 'Description', 'Folder' (set to 'My Scans'), and 'Targets' (set to '192.168.176.241'). There is an 'Upload targets' button and a 'Save' button at the bottom. The bottom of the screen shows a Windows taskbar with the time 12:43 PM on 8/24/2023.
